## **Selected Topics in Teaching Economics Integrating Economics into the Curriculum (K-12)**

**Center for Economic Education  
Northern Kentucky University  
Summer 2008**

June 9-July 19, 2008

3 credit hours

100% web-based

Call Number: 10294

Are you looking for ways to integrate economic concepts into your classroom? This course will feature interdisciplinary, interactive, hands-on lessons for students at the elementary, middle, and high school levels. We will explore internet-based resources and review standards-based curriculum materials. One of the following options must be completed:

- Option 1: (a) Work through all material, activities and assignments presented on Blackboard, (b) participate in course discussion board, and (c) develop a one-week teaching unit for your class
- Option 2: (a) Attend the Right Start Institute for high school teachers (June 9-12 @ Rough River State Park—no charge, lodging and meals provided. See: [www.econ.org/programs/rightstart.html](http://www.econ.org/programs/rightstart.html)), (b) participate in course discussion board, and (c) develop a one-week teaching unit for your class
- Option 3: (a) Attend the Financial Literacy Summit for teachers of grades 4-12, June 25-26, 2008, at the Marriott East Hotel in Louisville (see: [www.kcee.org/summit](http://www.kcee.org/summit)), (b) work through selected material, activities and assignments on Blackboard, (c) participate in course discussion board, and (d) develop a one-week teaching unit for your class
